Southeast Career Technical Academy (also known as Southeast Tech) is a four-year comprehensive high school and career technical academy enrolling a diverse population of approximately 1750 motivated students in grades nine through twelve. Clark County School District middle school students apply for admission to Southeast Tech from the populations of Las Vegas, Henderson and Boulder City. Admitted students are selected based on academic criteria of 2.0 GPA or higher and good attendance. Of the Southeast Tech educational faculty, nearly 70% hold master's degrees or higher. Southeast Tech is accredited by AdvancEd.

Southeast Tech students are unique in that they carry additional credits to attain a technical career certification on top of the normal credit requirements of a high school diploma. While most CCSD high schools target the Nevada minimum of 22.5 semester credits required to graduate, the typical Southeast Tech senior graduates with 28 credits in addition to technical certification and/or professional licensure. While Honors and Advanced Placement courses are part of the course curriculum, advanced technical college level classes also earn Southeast Tech students an additional 3 to 21 college credits before graduation. In the 2014/2015 school year, Southeast Tech students earned the equivalent of \$52,000.00 in College of Southern Nevada college tuition credits. The Southeast Tech success story is being closely studied by other school districts in the nation.

14 Exciting Career Tech Programs

When compared to other district high schools, Southeast Tech has:

- One of the highest graduation rates at 95%
- One of the highest student rates of attendance
- One of the lowest rates of credit deficient students
- One of the lowest dropout rates
- 98% of seniors pass all parts of the Nevada High School Proficiency Examinations - one of the best rates in the district
- Favorable student-to-teacher ratios
- The most community service hours of any high school
